PROJECTS

Brophie | React, ExpressJS, AWS S3, Redis, PostgreSQL

Jan 2024 - Mar 2024

- Building an online photo gallery that displays your photos and groups them by proximity in order to automatically create event groupings.
- Planning on implementing AI analysis in order to create better groupings.

Plant Together | React, ExpressJS, Yjs, Redis, PostgreSQL, WebAssembly

Sep 2024 - Mar 2025

- Built a real-time collaborative UML editor with React, ExpressJS, and Yjs, supporting 50+ users.
- Implemented client-side PlantUML rendering via WebAssembly for instant diagram updates.
- Integrated React front-end with adaptive design using TailwindCSS.
- Contributed to team development including mobile/adaptive design, cursor highlighting, private/public rooms, CRUD functionality and endpoints.

UoGuessr | Flutter, Supabase

Sep 2024 - Mar 2025

- Built a GeoGuessr inspired game to create a social and fun way for students to learn the University of Guelph campus.
- Used Flutter for application development to support both Android and IOS applications.

WORK EXPERIENCE

Administrative Supervisor – Making Waves Swim School

Mar 2024 - Present

- Troubleshooted customer issues with account, online policies, registration, and payments.
- Scheduled, edited, and managed operations side for the classes.
- Ran and analyzed sales reports in order to better create and find sales opportunities.

International Ambassador - Waterloo Catholic District School Board

May - Jul 2023, 2024, 2025

- Worked with exchange students with various cultures and levels of English.
